

MADE TEKSTİL

Outerwear Design, Development and Manufacturing

COMPANY PRESENTATION · 2026

Istanbul

MADE TEKSTİL

OUTERWEAR
DESIGN & MANUFACTURING

Produced for GIOVANE GENTILE by Made Tekstil.

Made Tekstil

Outerwear expertise since 2013

Made Tekstil develops and manages premium outerwear collections for established fashion brands. The company combines product development in Istanbul with a flexible manufacturing network in Vietnam and a long-standing material supply base in China.

ISTANBUL

Design, development, showroom and customer coordination

VIETNAM

Production through experienced partner factories

CHINA

Established sourcing network for fabrics and accessories

Product development

A single partner from first brief to production

01 Concept and product direction

02 Fabric and accessory sourcing

03 Pattern, prototype and fitting

04 Pre-production approval

05 Production and quality control

06 Shipment coordination

Outerwear expertise

Product categories supported by specialist development and sourcing

Puffer jackets

Parkas and coats

Bombers and hybrid styles

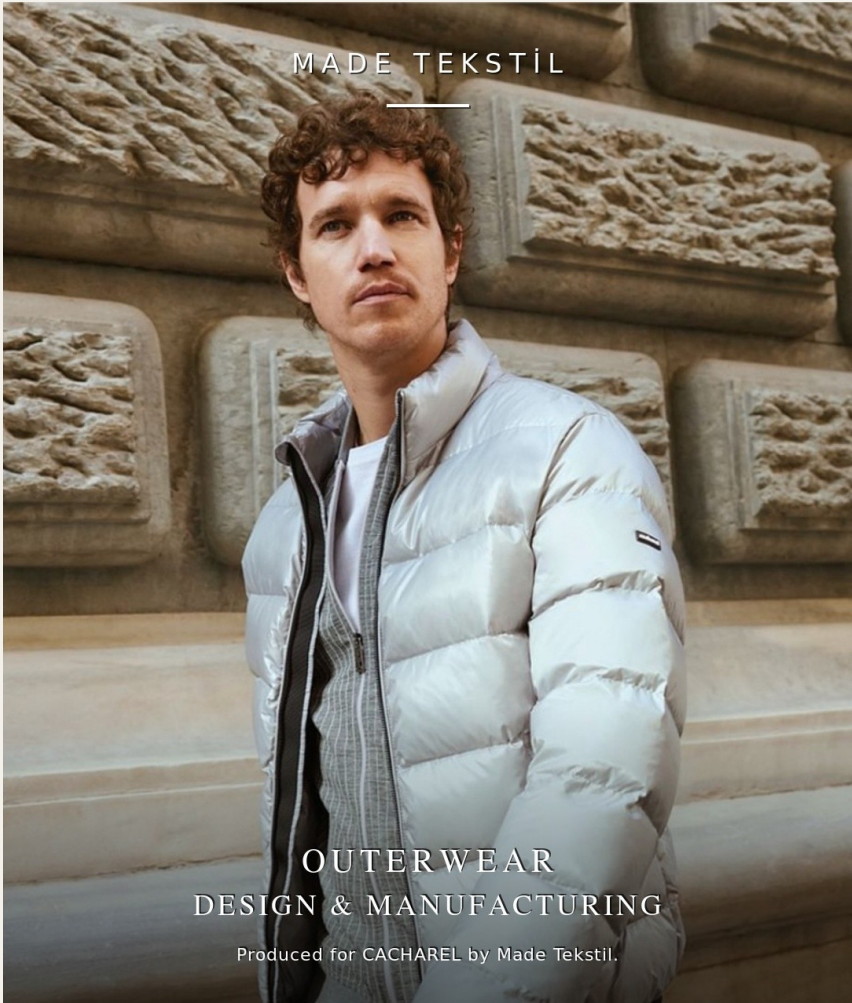

Lightweight quilted outerwear

Silhouette, filling, quilting, trims, construction and fit are developed for each brand brief.

Selected brand work

Cacharel · outerwear design and manufacturing

Selected brand work

Giovane Gentile · outerwear development and manufacturing

Selected brand work

Tween and Enrico Cerini · tailored and lightweight outerwear

Development control

Hands-on coordination at every approval stage

Technical review

Construction, measurements and materials are reviewed directly with the production team.

Sample approval

Each model moves through prototype and pre-production checks before bulk production.

Quality follow-up

Bulk production is monitored against approved specifications and workmanship standards.

Production network

Flexible capacity through experienced partner factories in Vietnam

Partner factories support international brand requirements and established social-compliance practices.

Audit and compliance documentation can be shared for the factory selected for each programme.

MADE TEKSTIL

Commercial framework

Initial parameters for European partnerships

300

Minimum order quantity
per style

≈ 5 months

Approximate lead time
to Europe after order confirmation

50,000

Annual production capacity
up to 50,000 pieces

Final lead times depend on material availability, development scope and shipping method.

A focused partner for outerwear programmes

From development to delivery

Outerwear development

Silhouette, construction, filling and fit are developed according to each brand's brief.

Material sourcing

Fabrics, trims and accessories are selected through long-term supplier relationships.

Production management

Made Tekstil coordinates factory allocation, approval stages and production follow-up.

Quality control

Bulk production follows the approved sample and agreed workmanship standards.
